Movac are a UK based paint distributor, supplying trade products to the automotive, wood and metal industries.

From industrial finishes for wood and metal to automotive paints for the professional vehicle body repair shop, Movac provide a variety of top brand paints and associated products.

Movac provide a high standard of service and in doing so, ensure customers can rely on them as their main source of supply - in total confidence that Movac will deliver the goods for them.

As an industrial and automotive paint supplier, Movac only deal with trade customers.

Movac have strategically placed depots throughout the UK with many delivery vans, employ over 100 staff in total, with technical field based sales staff, supplying product throughout the UK and into Europe.

Automotive Finishes

Paint and associated products for cars, buses and trucks.

Industrial Wood Finishes

A comprehensive portfolio of basecoats, topcoats and primer products ranging from fire retardant coatings to woodfinish abrasives.

Industrial Coatings

Paint and associated items for metal, glass, PVC and other specialist materials.

Industrial Wood Finishes

Polyurethane Range

These products bring higher quality finishes along with a vastly increased speed of finishing to the application process.

Acrylic Range

The ultimate in two pack clear 'water white' systems. Easy to use and giving non-yellowing properties for use over light timbers and on painted surfaces. Available from dead matt up to high gloss levels.

Waterbased Range

Pigmented Range: A comprehensive range exhibiting a quality of finish to match top grade solvent based systems.

Clear Range: The finest range of basecoats, topcoats and coat-on-coat lacquers giving superior quality and clarity.

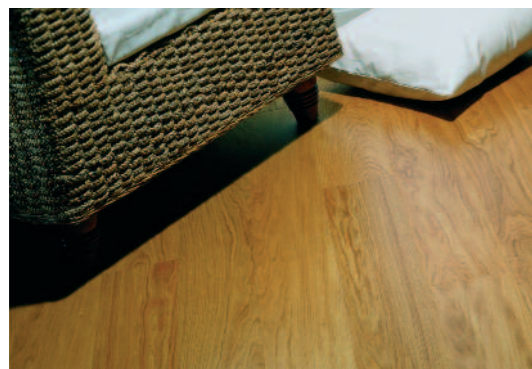

Polyester Range

A wide range of products including both basecoats and topcoats, available in both clear and pigmented systems. Typically used when a high gloss 'piano' finish is required.

Flooring Range

For both factory and on-site use, Movac has all the answers for flooring coatings. We can supply all types of lacquers and basecoats, in both water and solvent based systems.

Traditional Range

A combination of established Anglo-Italian quality, enhanced with typical attention to detail, creating easy to use and high quality finishes in Cellulose, Pre-Cat and Acid Cat.

Product Variants

Many of the paints and lacquers are available in multiple gloss levels – this is shown by ** in the product item code – ranging from 5% up to 95% gloss.

Corob Colour Management

Corob is one of the most advanced colour mixing systems currently available. It combines new and industry leading water and solvent based pigments and bases, to produce the finest quality finishes and matches that have superb brightness and excellent coverage power. Can be used with all Sayerlack coatings.
