

# PPG Wood Finishes

## Movac Group Limited

With more than 100 years of Wood Industry experience, PPG solves coatings challenges with technology and lowers overall costs of operation with application expertise. PPG Industrial Coatings specializes in high-quality, industrial paint systems for the entire timber-processing industry. As the world's largest coatings producer, PPG protects wood with industry leading products, productivity solutions and services including innovation and leadership through environmentally progressive technologies.

Movac Group Limited is our independent distributor for the UK. Their experienced employees will be more than happy to introduce the PPG Wood Finishes product range to you, so please contact us if you have any questions. Together we are convinced that once again we are making a big step in protecting your Quality Wooden products.

The PPG Wood Finishes product range is available for innumerable application methods and a diversity of wood types to meet specific requirements and performance. The products are developed to bring high technology to the joinery coating industry, with many benefits including early water resistance and high isolation. The product range is continually bringing in new coatings at the cutting edge of the market.

PPG Wood Finishes is a product range of PPG Industrial Coatings.
